I will let Captain Tillman speak for himself, however, and will congratulate the Sepator himself and the public at large upon the wonderful change that my somewhat vigorous exposure of the Senator has had upon his manners, and I am sorry I cannot add upon his morals for I am satisfied that by the time I am through the public very ingenious defense, but has used

the purpose of concealing the truth instead of telling it. Possibly I may know that part of the public who do not owe Senator Irby well, something of an explanation or an apology for the unusually vigorous but appropriatelanguage with which I drew such an accurate and life-like picture of the great Senator. They are not aware of the longcontinued provocation, of which "Craddock" is only a sample, and I would remind them that it would be impossi-

ble to do justice to such a monstrosity in anything like ordinary language, and "whatever is worth doing is worth doing well. In order that the public may catch that last Christmas, while snow bound here in Columbia, and afterwards whilst still snow-hound in Laurens, I prepared a rough article on the political situation in South Carolina, headed The Reform Movement" and "Some Christmas Reflections of an Old Reformer." This article, which was in-

movement in particular and politics in

ceneral in South Carolina was shown

and suggested to the criticism of prominent gentlemen in the State, in whose judgment I nad connues and whom I considered comparatively free from partisan feeling and prejunice. It was written from a patriotic standpoint and was intended for the good of the Reform movement and to "pour oil up on the troubled waters" of the State. It endeavored to criticise all factions fairly and there is unavoidably in such an article some honest and fair criticism of Governor Tillman as a public officer, but there is no abuse of any one and the "great political accident," Sen ator Irby, is not even mentioned, un-
